Ball State University Alumni Center

"Exploring Access and Privacy Legal Issues for Archivists, Librarians, and Information Professionals"

Instructor Menzi Behrnd-Klodt will provide an in-depth course to access and privacy legal issues encountered by today's archivists, librarians, and curators. Taught by an archivist and attorney with extensive experience in both fields, the course will examine some of the most perplexing and vexing issues for archivists today – how to balance providing open access with preserving personal privacy (including that of third parties) and how to understand, measure, and assess the risks of using copyrighted archival material.

The workshop also will discuss ethical considerations, ownership, fair use, Section 108, and orphan works. Participants will explore these challenging issues through lecture, pre-readings, and workshop exercises. This course will provide useful information to new and experienced professionals in public and private archives, libraries, special collections, and museums.

Registration is free of charge for SIA or MAC members. The cost for non-members of either organization is $20.00. Attendance is limited to the first 35 registrants.

Register for the pre-conference workshop by completing the online registration form.
